The Chinese Ceramic Society

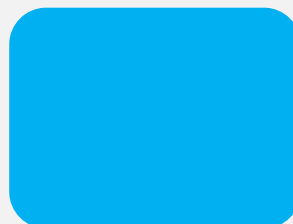

Venice, July 10

About Us

The Chinese Ceramic Society (CCS) was founded in 1945. Currently, CCS owns 21,020 individual members, 26 sub-committees including Glass, Special Glass and Electronic Glass sub-committees, 3 working committees and 25 local societies.

CCS has joined in five international organizations including International Commission on Glass and International Ceramic Federation. Meanwhile, CCS has established bilateral and multilateral friendly relationships with relative academic organizations in USA, Europe, Australia, Korea, Japan and so on. The business scope of CCS includes academic exchange, technology exhibition, scientific and technological books and periodicals edition and publication, continuing education and scientific popularization, technical consultation, services, etc.

Conferences & Events

Academic Exchange

Academic Exchange Activity

Over 40 academic exchanges are held at home and abroad every year. CCS focuses on high-end and frontier academic exchanges to promote technical innovation on scientific subjects and industries.

2017-2019 Conference related to Glass Field

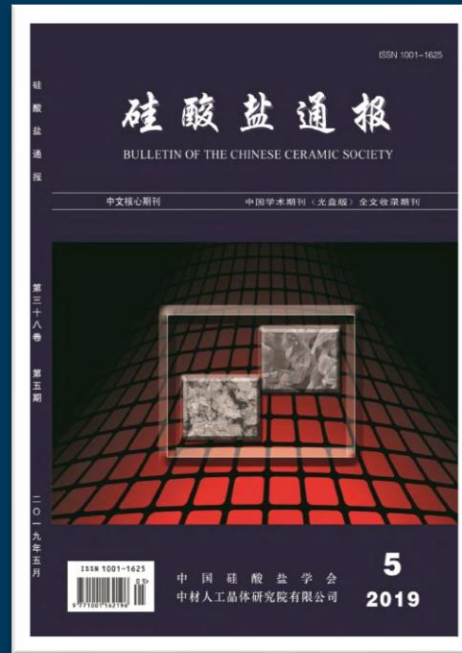

No.	Activities	Month	The number of participants	The number of academic paper
1	The 28 th China International Glass Industrial Technical Exhibition	2017-5		
2	第9届中国功能玻璃学术研讨会暨新型光电子材料国际论坛 The 9th China Functional Glass Academic Symposium(Forum on new optoelectronic materials)	2017-5	200	54
3	玻璃纤维产业技术研讨会 Technical Seminar on Glass Fiber Industry	2017-6	260	11
4	2017年全国玻璃科学技术年会 2017 Annual National Conference on Glass Science and Technology	2017-8	230	153
5	The 29 th China International Glass Industrial Technical Exhibition	2018-4		
6	2018年全国玻璃窑炉技术研讨交流会 2018 National Symposium on Glass Melting Furnace Technology	2018-9	200	25
7	光电玻璃产业链协同创新高峰论坛 Summit Forum on Collaborative Innovation of Photoelectric Glass Industry Chain	2018-9	136	22
8	The 10th China Functional Glass Academic Symposium(Forum on new optoelectronic materials)	2018-11	400	200
9	The 30 th China International Glass Industrial Technical Exhibition	2019-05	34329	
10	2019 Annual National Meeting on Glass Science and Technology	2019-08	120	
11	2019 National Symposium on Glass Melting Technology	2019-09	150	
12	The 5 th ICG winter school	2019-10		

Science Publication

Scientific journal publication

CCS has three academic journals named the Journal of the Chinese Ceramic Society, the Bulletin of the Chinese Ceramic Society and Journal of Materiomics. Started publication in 1957, the Journal of the Chinese Ceramic Society is the comprehensive academic journals in inorganic nonmetallic material field and is a core journal in Chinese and a dual-effect periodical. The Journal of Materiomics aims to provide a continuous forum for the dissemination of research in the general field of materials science, particularly systematic studies of the relationships among composition, processing, structure, property, and performance of advanced materials.

Talent Recommendation

Talent Training & Recommendation

The Chinese Ceramic Society(CCS) pays attention to training and recommending the outstanding talents in science and technology, especially to creating a favorable environment and conditions for the growth and full play of young scientific and technological personnel. CCS has set up the Excellent Doctoral Thesis Award and the Young Science and Technology Award, and set up the Building Materials Science and Technology Award jointly with China Building Materials Federation.

International Communication

International exchange & cooperation

CCS has actively carried out the non-governmental international scientific and technological exchanges and cooperation, and participated in various activities of international scientific and technological organizations such as International Commission on Glass and International Ceramic Federation. Meanwhile, CCS actively recommends Chinese scientists to international scientific and technological organizations, holds international brand academic conferences, and conducts bilateral and multilateral international exchanges.

Conferences & Events

ICG winter school

ICG winter school which was sponsored by the International Commission on Glass (ICG) and organized by the Chinese Ceramic Society , aims to improve researchers' understanding of Glass science and technology and cultivate talents for the development of the global glass industry.

The 4th ICG winter school was successfully held on November 4, 2018. At the event, the famous experts in glass and glass curing of nuclear waste from International Commission on Glass, International Nuclear Energy Institute and other organizers were invited as speakers from China, USA, UK, France and others. There were more than 60 delegates to be present at the event, who from relevant institutions at home and abroad, including research institutes, universities and engineering companies.

The 5th ICG winter school will be held in Wuhan of China from Oct. 20 to 26, 2019. Welcome to the event.

China Functional Glass Academic Symposium

China Functional Glass Academic Symposium was held for the first time in 1997 and since then has been successfully held ten times. At the symposium, the basic science issues and applied technologies related to function glass are deeply debated and interacted widely.

National Annual Conference on Glass Science and Technology

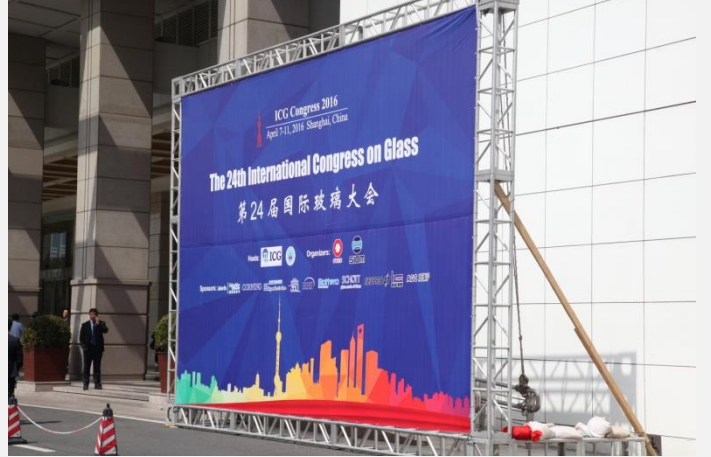

National Annual Conference on Glass Science and Technology is held every two years. At the conference, the discussions and exchanges are mainly focused on the flat glass, processed glass, domestic glass and other kinds of glass products as well as manufacturing technology, processing technology and equipment, innovative applications and so on.

ICG Congress 2016

The 24th International Congress on Glass(ICG) was successfully held in Shanghai on April 11, 2016 and was a grand event in international glass industry as ICG was held for the second time in China 21 years after. The development achievements of China' s Glass industry are recognized and affirmed more and more by international high-end counterparts. The 24th ICG' s topics covered all segments in glass industry including research, exploring technology, education, publishing, etc. There were more than 800 delegates from 33 countries to participate in the event.

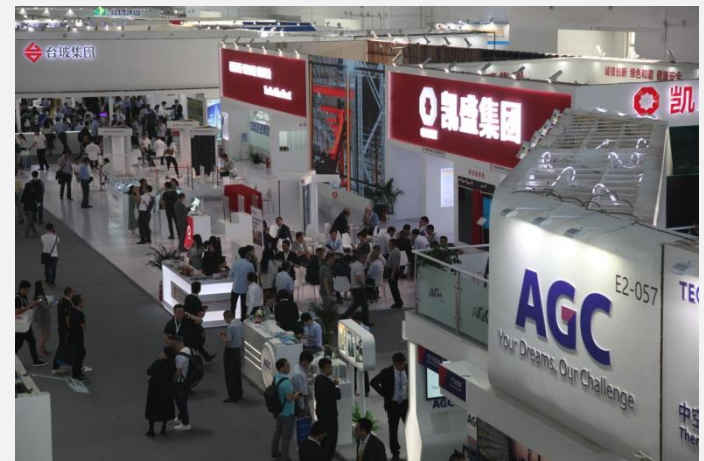

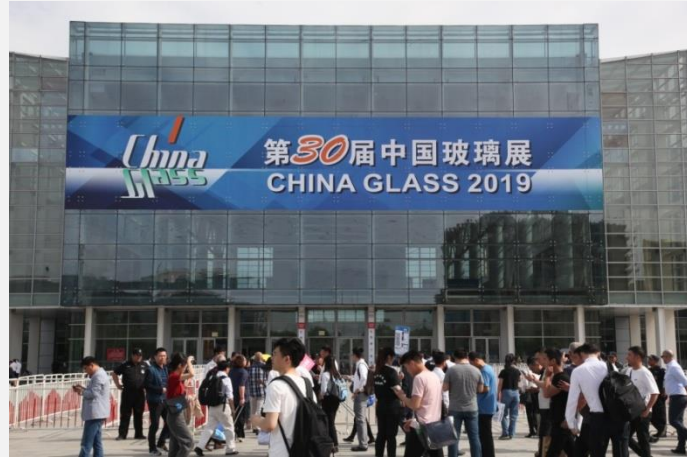

China International Glass Industrial Technical Exhibition

China International Glass Industrial Technical Exhibition(China Glass) was founded in 1986. As the organizer, the Chinese Ceramic Society has been adhering to the exhibiting concept of "specialization, internationalization and scale". For more than 30 years of cultivation and development, China Glass has become an international famous professional exhibition with fully independent intellectual property rights, is not only the most commercial value exhibition in China glass industry, but also a platform for technical exchanges and economic and trade negotiations. The 30th China Glass which recently concluded on May 25, attracted 905 exhibitors from 28 countries to be present with more than 106,800 square meters of exhibiting scale, became the largest exhibition of the global glass industry in 2019.

China CHINA GLASS 2020

31st China International Glass Industrial Technical Exhibition

Shanghai New International Expo Centre

April 14-17, 2020

Organizer: The Chinese Ceramic Society
Supporter: Shanghai Ceramic Society
Contractor: Beijing Zhonggui Exhibition Co., Ltd.
